

Dear The National Organization of Professional Black NRCS Employees and James E. Tatum Scholarship Committee,

Thanks to your contribution to my college funds, I am enjoying my time here at Prairie View A&M University! I am getting the college experience that everyone was talking about but still doing my work. Every day I am striving to keep good academic standings and a high gpa, and I have you to thank for that. Without you and others help, I wouldn't be able to focus on my studies as much and enjoy my college experience. With your help I am able to not worry about how I will pay for things, but focus on passing my classes so I can work towards my dream occupation. I currently am in two clubs that pertain to my major concentration. One club is Pre Vet where we learn all that we need to know and the steps to becoming a veterinarian such GRE Prep and practicing animal handling. The other club is the livestock where we, like also in the Pre Vet club, do a bunch of volunteer work. Also in Livestock I get to work on the farm with the goats and cattle helping with the births and such. With these clubs, I am able to get the hours I need to go to Veterinarian School. I also shadow at a vet clinic down the street from Prairie View A&M University called Dr Baker Veterinary Clinic to earn my vet hours. Aside from my community service and volunteering and getting my hours, I am working hard to keep my grades up.

Thank you so much for the support and opportunity granted by this scholarship. I hope to make you as well as others proud with what I am trying to accomplish in life.

With Love from a Future Veterinarian,  
Hannah
